**DETAILED ACTION**

This action is responsive to applicant's amendment of 6/5/2009, which has been entered into the electronic file of record.

***Allowable Subject Matter***

Claims 13, 15 and 17 are allowed.

The following is an examiner's statement of reasons for allowance: The subject matter of claims 13, 15 and 17 had already been allowed in the non-final rejection of 3/11/2009. Reasons for indication of allowability have already been presented on the record. The applicant has restated the subject matter of claims 13, 15 and 17 in independent form to render these claims allowable. All other claims are cancelled.

The examiner performed an updated search and concluded that the limitations found in each remaining claim, including the steps of "performing, in parallel, writing with respect to said plurality of nonvolatile memory chips when the write speed mode stored in said host information memory is a high speed mode, and sequentially performing writing with respect to said plurality of nonvolatile memory chips when the write speed mode stored in said host information memory is a low speed mode" is not taught or suggested in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
